All your favourites, in an instant

Whether you run a factory, hospital, retail space or an office break room space, we know you and your co-workers are looking for a quick, refreshing break. Our range of industry leading KLIX machines with patented in-cup technology deliver the perfect instant drink just as you like it.

Exceptional range of instant drinks & options

With both hot and cold drinks available in a single machine, choose from the nation's favourite coffees, teas, hot chocolates, cappuccinos, lattes, juice drinks, water and even soup and snacks.

Ultra-reliable technology

The market leading performance of a KLIX system means it simply won't let you down - driving productivity, saving time and money.

In Cup Technology

Our pioneering KLIX in-Cup technology ensures consistent quality and authentic taste every time - loved by you and trusted by our brand partners.

Ingredients are pre-sealed in the cup, the machine simply adds water, ensuring you get the purest flavour in every cup.

Industry leading reliability, built-in

Our machines are manufactured to meet the demands of heavy usage and our expert engineers are committed to keeping your machine working at an optimum level to avoid breakdowns and keep your people on the go, with industry leading 99.7% up time.*

*Based on KLIX machine base 2020
